Lead Roll Back

The Maxi-CUBE Classic Lead Roll Back

Maxi-CUBE's Roll Back Lead Trailer is efficient and reliable, thanks to its proven and durable rack and pinion drive system. With a powerful high torque electro-hydraulic motor driving it and supported by ball bearing wheels, the Maxi-CUBE Roll Back moves smoothly and has no chains or cables to break. It is powered by a dedicated low maintenance battery that is charged from the refrigeration plant.

Maxi-CUBE Roll Back bodies make unloading a breeze and work time after time.

Some Maxi-CUBE Options to suit your needs

- Disc brakes
- Multi zone temperature control systems
- One-piece folding partition
- Maxi-Grip Floor system / Flat aluminium floor
- Versapan (patented) – a combination of meat van, double loader and conventional pantec
- Maxi-CUBE double loader system
- Rear roller doors
- Side doors
